

Dedicated image uploading is coming to YaleClubs very soon! In the meantime, here is how to host your flyers on Imgur and upload them to YaleClubs!

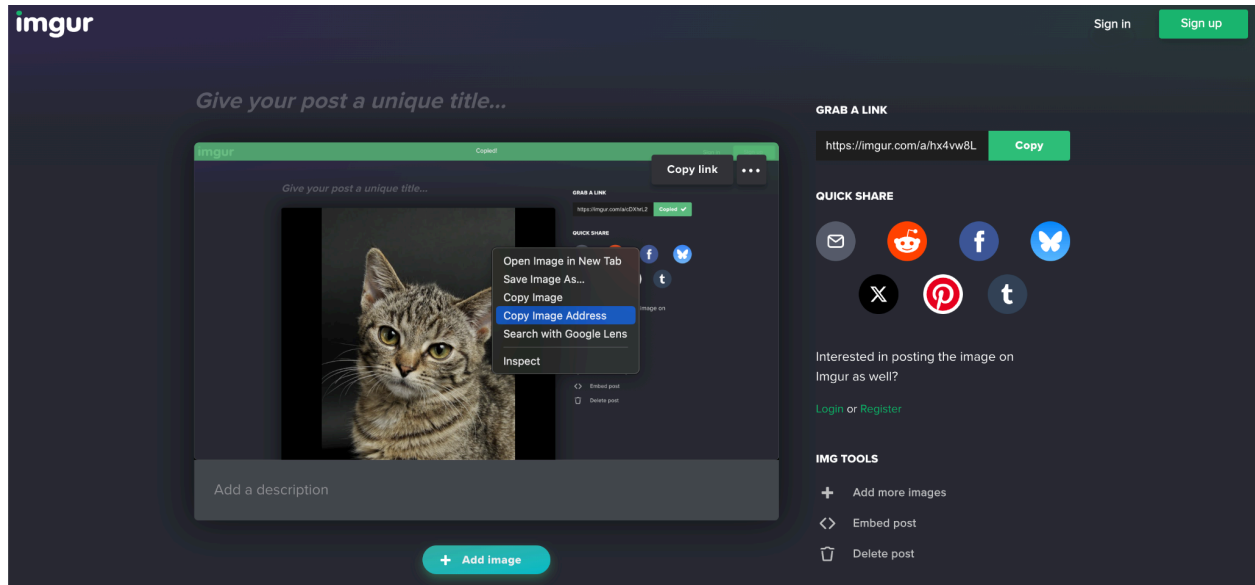

1. Click New Post in the top left. Don't worry, we won't actually be submitting a post!

2. Drag and drop your image!

3. Right click on the image you've uploaded and click **Copy Image Address**

4. Paste the image URL into YaleClubs! Crop and then continue with the event creation.
Thanks for being a dedicated early user of YaleClubs!
